

## **Crematory Operator's Certification Program (COCP) - *Associates***

### **Course Overview**

Our Associates COCP is the benchmark for all crematory operator training programs. For over 20 years, we conducted this Matthews course on behalf of CANA, NFDA, ICCFA and numerous state and Canadian Associations.

This 8 hour course is an educational program designed to provide new and beginner level operators with a strong foundation on the design and operation of cremation equipment, as well as day to day crematory operations. Some of the topics covered are Principles of Combustion, Cremation and the Environment, Recordkeeping, and Handling, Processing and Packaging of Cremated Remains.
