

RIVERSIDE CEMETERY – CLEVELAND, OHIO

KAPCAR, GREGORY

Greg Kapcar joined the proud and dedicated team at Riverside Cemetery in Cleveland, Ohio as the General Manager in November 2012.

Greg's connection with Riverside Cemetery dates back a quarter century when he began working as a student intern with the grounds crew where he spent several years learning and performing all facets of the daily grounds-keeping responsibilities. Years later, he accepted a volunteer position on the Cemetery's Trustee Board, which laid a solid foundation for his understanding of the fundamental mission, responsibilities, and compassionate commitment of this historic Cemetery.

For the past seven years, Greg lived and worked in Columbus, Ohio where he was known and respected around the Statehouse for his advocacy and lobbying as Legislative Director of the Public Children Services Association of Ohio, a statewide membership association.

As a Licensed Social Worker with a Masters in Public Administration, Greg comes to Riverside with a demonstrated track record of leadership, relationship and consensus building at various levels throughout his career, as well as coaching and counseling families dealing with very difficult life circumstances. His decision now to redirect his many successful career skills and accomplishments is appreciated by our Association.

We welcome Greg and his wife, Sally back to the Cleveland area and are excited to have him join the Cemetery's team as General Manager.
